PROFESSIONAL PROFILE

Highly motivated and results-driven Software Engineer with a strong academic background and a passion for developing innovative solutions. Seeking a challenging position in a dynamic organization where I can apply my technical expertise and programming skills to contribute to the development of cutting-edge software and website products.

EDUCATION

Bachelor of Science in Information Technology (BSIT)
Technological University of the Philippines
Magna Cum Laude

WORK EXPERIENCE

Brandsasia Channel Digital, Contura Medica
2021-2022 - GRAPHIC ARTIST

- Creating visually appealing images to accompany written text; includes meeting with the head to determine their needs, completing projects using design software, and revising projects based on manager's feedback

Yaramay Computer Maintenance Services
2022-2023 - Part Time (Front-End Developer, UI/UX Designer)

- Coordinated communications with the Team
- Constructing the visual elements on a page, such as the layout, buttons, menus, forms, and other features using ReactJS and NodeJS (SPAs)

MITACOR
MARCH 2023-AUG 2023- JR. APPLICATIONS DEVELOPER

- Primary focus is on designing, developing, and maintaining software applications. I utilize my programming expertise and technical skills to create efficient and user-friendly applications that meet the specific needs and requirements of clients or end-users using PHP, Laravel, ReactJS & JS.

FASTTRACK SOLUTIONS INC.
AUG 2023 - MAY 2024 - SDK PROGRAMMER

- Design, develop, and maintain libraries or APIs (Application Programming Interfaces) that provide access to platform-specific features, services, or functionality. Handles SAP Business One customization upon request of the clients. Languages: C# .NET, JavaScript.

AWU FOUNDATION
APR 2024 - JAN 2025 - WEB DEVELOPER

- Developed and maintained responsive websites and web applications using HTML5, CSS3, JavaScript, and modern frameworks (e.g., React, Angular, Vue).

PROJECTS

UNIVERSITY PROJECTS

- ESAGIP - ANDROID APP

YARAMAY COMPUTER MAINTENANCE SERVICES

- TABANG OFW

- LANDING PAGES
  - ISLAS
  - ELIZALDE BROADCASTING
  - EBEN-EZAR
  - KUY's Grill & Restaurant

MITACOR

- MAMOW Project
- Learning Management System
- School Management System
- Mitacor MarketPlace
- Landing Pages

DESCRIPTION

- A college thesis project designed to streamline emergency response for Brgy. Marulas residents. The two-sided mobile application consists of a Resident Side, where users can request immediate assistance, and a Rescuer Side, where responders can efficiently manage and attend to emergencies. Additionally, an Admin Web Portal provides oversight and management of rescue operations, ensuring a seamless and coordinated response system.

FRONTEND DEVELOPER

- Collaborated with a cross-functional team to develop an emergency web application tailored for Overseas Filipino Workers (OFWs), aimed at providing quick access to essential services and support during crises.
- Implemented responsive and accessible user interfaces using HTML, CSS, and JavaScript, ensuring compatibility across various devices and browsers.
- Utilized React.js framework to build dynamic and interactive components, enhancing user engagement and experience.

- Collaborated with restaurant owners and marketing teams to create visually appealing and user-friendly landing pages using WordPress, tailored to showcase their unique cuisines, ambiance, and promotions.
- Customized WordPress themes and templates to align with the branding guidelines and design preferences of each restaurant, ensuring a consistent and professional online presence
- Conducted usability testing and gathered feedback from clients to iterate on design and functionality improvements, ensuring alignment with business goals and user expectations.

- Maintained and updated websites for management systems and online marketplaces, ensuring functionality, security, and usability.
- Collaborated with senior developers to implement feature enhancements and bug fixes, following coding standards and best practices.
- Conducted regular website audits to identify areas for improvement and optimization, such as performance enhancements, security patches, and user interface updates.
- Provided technical support and troubleshooting assistance to end-users, addressing issues related to website functionality, content management, and performance optimization.
- Documented technical specifications, change requests, and troubleshooting procedures to facilitate knowledge sharing and collaboration within the development team.
- Customized WordPress themes and templates to align with the branding guidelines and design preferences of each restaurant, ensuring a consistent and professional online presence
- Conducted usability testing and gathered feedback from clients to iterate on design and functionality improvements, ensuring alignment with business goals and user expectations.

PROJECTS

DESCRIPTION

FASTTRACK SOLUTIONS INC

Software:

- SAP Business One

- ·Assessing existing IT infrastructure and recommending improvements.
- ·Perform system configuration according to the client's business process, data migration, and testing of the database
- ·Supporting QAs, Providing and Conduct SAP system User Acceptance Testing and training
- ·Provide support from project kick-off until Go Live of project implementation.
- ·Provide expertise in the implementation of SAP Business One and Responsible for the business process analysis and engineering; implementation—including setup, configuration, and customization; training; and overall client management of SAP clients.
- ·Deploying SAP solutions and ensuring smooth system integration.
- ·Troubleshooting and resolving issues to optimize performance.
- ·Developing and configuring customized SAP solutions.
- ·Writing scripts and programs to create user-friendly interfaces and enhanced functionalities

Others

- ScanPlus Portal (Inventory Operations / Productions
- Barcode Integration

- Customized the ScanPlus Portal to meet client requirements, including enhancements to inventory operations, production management, and barcode integration functionalities.
- Interacted closely with clients to understand their specific needs and translate them into actionable requirements and change requests.
- Collaborated with QA teams to ensure that customized features met quality standards and adhered to project specifications.
- Provided ongoing support and troubleshooting assistance to clients, addressing issues promptly and effectively to minimize downtime and ensure continuous system operation.
- Implemented barcode integration solutions, enabling seamless tracking and management of inventory items throughout the production process.
